

INTER-OFFICE CORRESPONDENCE

REPUBLIC CREOSOTING COMPANY

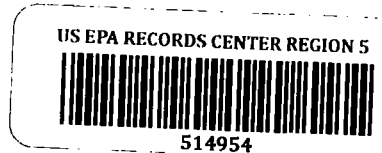

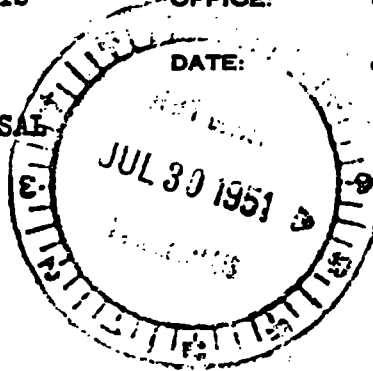

TO: MR. H. R. HORNER - INDIANAPOLIS

OFFICE: St. Louis Park

FROM: A. E. Larkin

DATE: July 27, 1951

SUBJECT: MINNEAPOLIS WASTE WATER DISPOSAL

Please accept our thanks for your letter of July 25th, and we appreciate the suggestions you have made regarding our situation. You may be sure we will continue to work on this problem, beginning immediately, to correct, if possible, the equipment we now have.

We shall make a careful study of all the points you have made that your experience suggests.

One thought occurs to me, that possibly the filter could be so located as to give us high enough pressures to speed the waste oil even though we might have to raise the inlet of the waste oil, so we can develop the pressure that is necessary to get the desired speed through the filter.

We will make the samples in accordance with your suggestions and try to get them during dry weather.

Thanking you again, and assuring you we will keep you posted, and I am sure Harry will be sending you his reaction to your letter also.

Yours very truly,

A handwritten signature in cursive script, appearing to read 'A. E. Larkin'.
